SAFE & SOUND

EVERYTHING MIGHT CHANGE

[BERG-OLSEN]

there are loose ends baby
and fingerprints on the wall
I stand so cold and silent
right were we thought we'd fall

there's a bright light in the distance
slowly closing in
and dogs keep barking down all the roads
we've been

the heat is slowly cooling off
yeah we might be out of range
there's still a while to sundown
everything might change
might change
might change

there's a key around here somewhere
to a big white car
it'll only seat the two of us
but we'll get from where we are

there's an ambush up ahead
but I'll kiss you and we'll break
through whatever will come
the next few days

TIME

[BERG-OLSEN]

the grass won't grow
and maybe the train won't come
oh machines won't know
what we've become

time is nothing but a heartache
time is nothing but a kiss
time is nothing but a move on
nothing but a kiss

oh the mind won't ease
by staring at the clock
the night won't pass
I'm in a dream lock

time is nothing but a sunrise
time is nothing but a kiss
time is nothing but a move on
nothing but a kiss

nothing but you
nothing but a kiss

TELLING YOU NOW

[BERG-OLSEN]

some would say we got it made
I'd say we've failed
some would say we're running
but don't know from what

some would even say that we're almost too perfect
some would even say they would wanna be us

but I'm telling you now
telling you now
telling you now what I should have told you before
I'm telling you now babe
telling you now
telling you now what I should have told you before

like in the front of the plane
there's a thousand switches
buttons and sounds and alarms
in case something goes wrong

someone's made the decision that the door should be locked
so no stupid or foolish will endanger no one

but I'm telling you now
telling you now
telling you now what I should have told you before
I'm telling you now babe
telling you now
telling you now what I should have told you before

so hold me someone
when I fall
and fall I will
cause I swallowed a pill it's too late to throw back up

I'm telling you now

[BERG-OLSEN]

TIME TO MOVE ON

they melted and cursed our wedding ring
they tried to steal almost everything
but we rattled baby and bit our tounge

rocks kept rolling and arrows broke
guns kept loading and barrels smoked
if there are ghosts out baby they're chained to their gold

some are machines without a soul
my heart is beating to gain control
I know you'll go with me when we need to go
and it feels like the right time baby to move on

they got to us like no one else
spread what we were keeping to ourselves
oh the battles baby kept us strong

some of them got through our barricades
some even got as close as friends
and I will never let them hurt you again

some are machines without a soul
my heart is beating to gain control
I know you'll go with me when we need to go
and it feels like the right time baby to move on
it seems like the right thing baby to be moving on

[BERG-OLSEN]

RIDIN' THE WAVES

we got the deep blue beneath us
we got the black night above
there's a chill in the air
there's no time like the times we fear

you're my wife soon a mother
you're my life and I'll be here
through the rain of bombs and bullets
through the dark nights and days

cause we're ridin' the waves
ridin' the waves
ridin' the waves

I've show trust to men of trouble
but I've kept honor to my name
I've been blessed by King and country
and by God I've been saved

cause we're ridin' the waves
ridin' the waves
ridin' the waves

there'll come a day when the sun
will cast a ray of sunshine again
there'll be no storm horizon
we'll be safe again

cause we're ridin' the waves
ridin' the waves
ridin' the waves

CIRCUS OR THE CLOWN

[BERG-OLSEN]

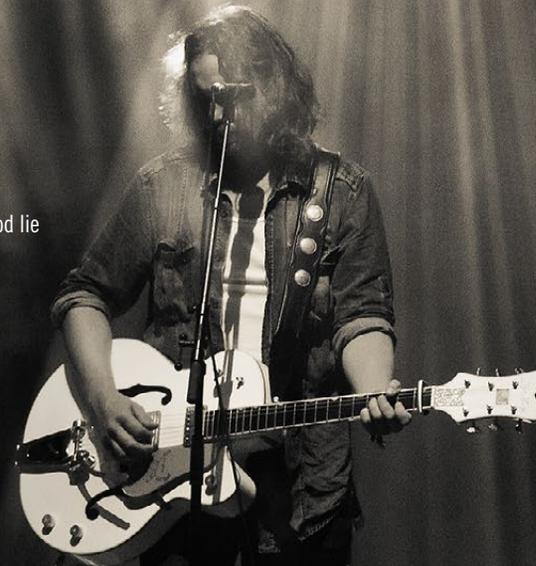

she turned the world around
and you never even tried
to read what was in her eyes
cause the truth wouldn't make a good lie

who let you down
who let you down
was it the circus or the clown

bravery never crossed your mind
never once did I see you fight
for all that's now lost in your life
the air keeps staring into your eyes

who let you down
who let you down
was it the circus or the clown
who let you down
who let you down
was it the circus or the clown

who let you down
who let you down
was it the circus or the clown

MAN O' WAR

(BERG-OLSEN)

no medals in my line of sight
I'll leave as quiet as I came
I got an everlasting tale
and a long eternal name
I'm sailin' the man o' war

my heart is beating like a drum
among the cannonballs
yeah the day was bound to come
when my climb became my fall
sailin' the man o
sailin' the man o war
sailin' the man o war

there's another map of worlds
and it's dug down deep
where the muscle makes the pearls
I need a safer place to sleep
sailin' the man o
sailin' the man o war
sailin' the man o war

I have lost the king of Rome
and my people's all alone
I am cursed in rock and stone

I was their moon and their sun
I was the heartbeat in their blood
I was the diamond in their mud
I was a truth in a big lie
I was the star in their eyes
now I'm shakin'
now I'm tremblin'
I'm at half the strength I was
I'm exiled barely alive
but I'm staring the enemy right in the eye
I'll be fighting forevermore
I'm the one and only
Man O' War

MAGIC

(BERG-OLSEN)

yeah I've held you a seat with my jacket
I can feel all the air in my blood
I've taken off my hat for you

I have dreamt like a prince of the princess
I've lost all I planned to say
I've run all the steps of the tower for you

sometimes you get lucky
unable to lose
the myth was the treasure
the map was the wand
and I've sunk into
the magic of you

yeah the gods always tried to break us
apart like the beats of a drum
impossible strange and fantastic like you

MAN FOR YOU

(BERG-OLSEN)

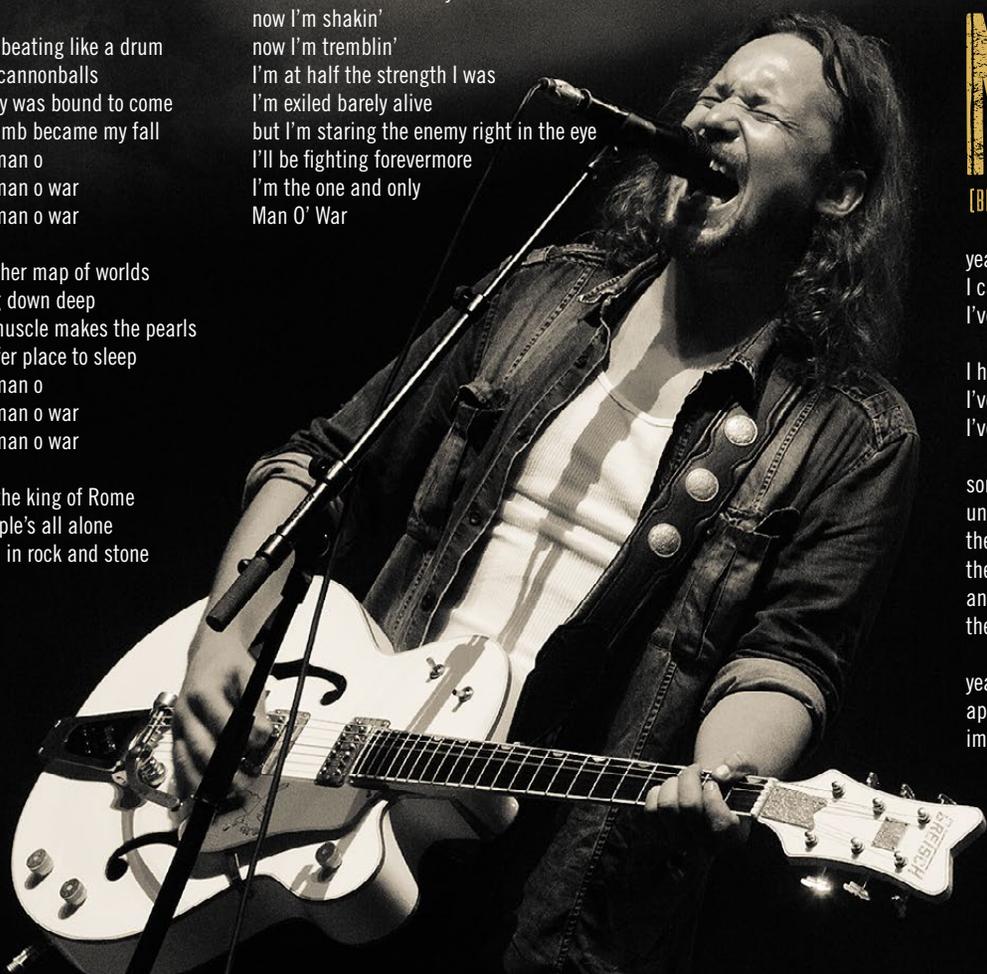

there's a satellite above us now baby
watching every move we make
some call em gods in the heavens
cause they're both real and fake

I'm the engine burning up around midnight
dripping my oil for you
some say my wheels are bound
to be burnin' too

I'm stuck in a figure of eight
restlessly looking for you
I'm running but I'm already late
but I'm the right man for you

I'm the troll that turned to stone in the sun
smoking my last cigarette
yeah babe I'm second to none
and I'm hard to forget

I'm stuck in a figure of eight
restlessly looking for you
I'm running but I'm already late
but I'm the right man for you

YOU WIN AGAIN

I couldn't Figure why
 You couldn't give me what everybody needs
 I shouldn't let you kick me when I'm down
 My baby
 I find out everybody know that
 You've been using me
 I'm surprised you
 Let me stay around you
 One day I'm gonna lift the cover
 And look inside your heart
 We gotta level before we go
 And tear this love apart

There's no fight you can't fight
 This battle of love with me
 You win again
 So little time
 We do nothing but compete
 There's no life on earth
 No other could see me through
 You win again
 Some never try
 But if anybody can, we can
 And I'll be, I'll be
 Following you

Oh baby I shake you from now on
 I'm gonna break down your defenses
 One by one
 I'm gonna hit you from all sides
 Lay your fortress open wide
 Nobody stops this body from
 Taking you

You better beware, I swear
 I'm gonna be there one day when you fall
 I could never let you cast aside
 The greatest love of all

BREATHING OUT

[BERG-OLSEN]

just when she thought life was passing her by
 it stopped her and shut down her sense of time
 seconds by minute hours by days
 it all went away

the clocks at her house turned to sand in the wind
 daylight and night time was starting to spin
 moments by mass love by forever
 it all came to stay

breathing out
 breathing out

she went out the door at the time she walked in
 she slept when she woke up and dreamed
 past by the present now by tomorrow
 it's all going on

she jumped through the faces of all of her life
 she moved through an endless circle of time
 months by the seasons years by the decades
 she came to stay

[BERG-OLSEN] SAFE & SOUND

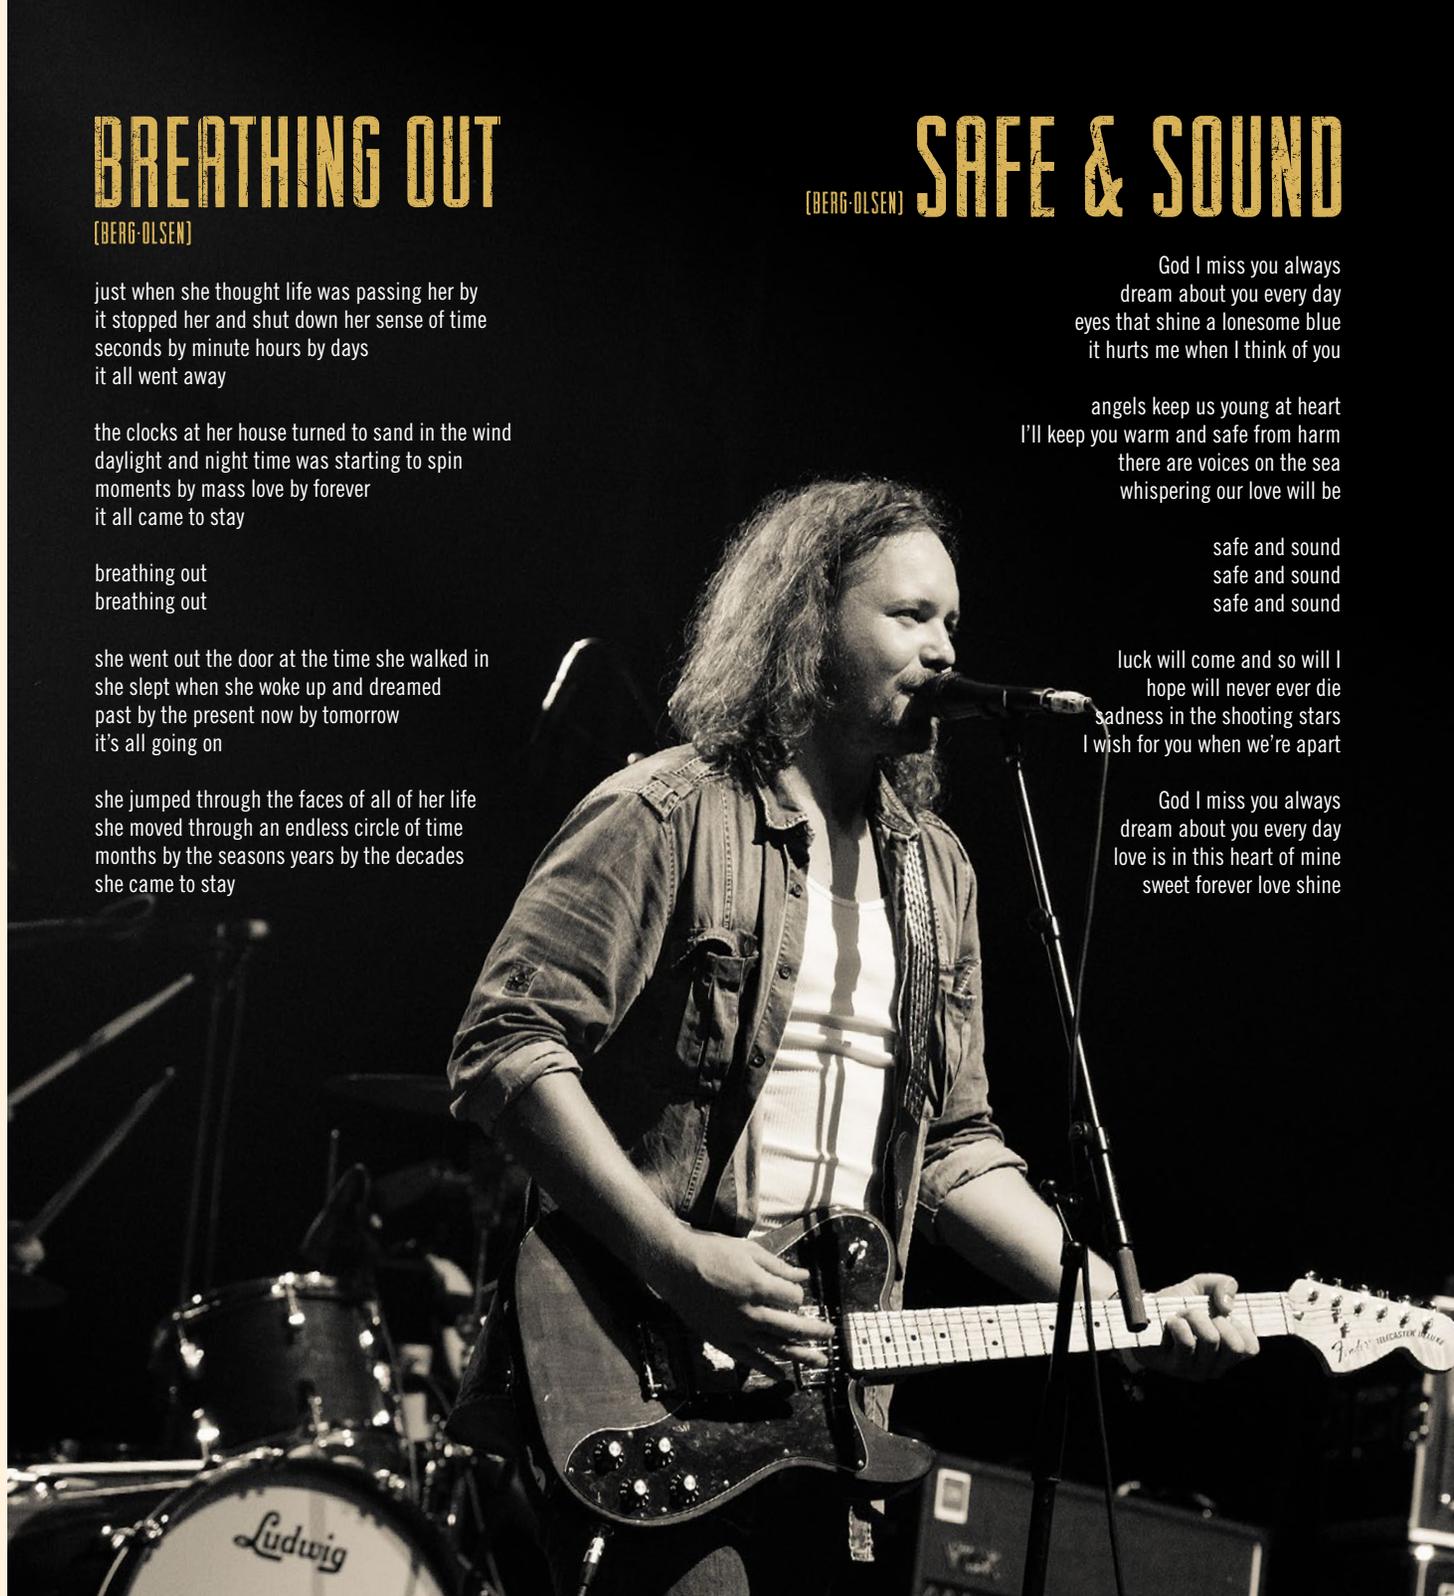

God I miss you always
 dream about you every day
 eyes that shine a lonesome blue
 it hurts me when I think of you

angels keep us young at heart
 I'll keep you warm and safe from harm
 there are voices on the sea
 whispering our love will be

safe and sound
 safe and sound
 safe and sound

luck will come and so will I
 hope will never ever die
 sadness in the shooting stars
 I wish for you when we're apart

God I miss you always
 dream about you every day
 love is in this heart of mine
 sweet forever love shine
